FIELD WORK FOR SITES 41, 69, AND 74, AT MARINE CORPS
BASE, CAMP LEJEUNE, NORTH CAROLINA

Ref: (a) LANTNAVFACENGCOM ltr 5090 1823:BCB:srw of 14 Oct 92

Encl: (1) Draft Final Remedial Investigation/Feasibility Study
Work Plan for Sites 41, 69, 74; Marine Corps Base,
Camp Lejeune
(2) Draft Final Remedial Investigation/Feasibility Study
Sampling Plan for Sites 41, 69, 74; Marine Corps
Base, Camp Lejeune
(3) Draft Final Remedial Investigation/Feasibility Study
Health and Safety Plan for Sites 41, 69, 74;
Marine Corps Base, Camp Lejeune

1. Enclosures (1) through (3) are provided for your review and comment. These sites are suspected as containing chemical surety materials. In consideration of your mission assignment, we request your assistance with our efforts to review Remedial Investigation/Feasibility Study (RI/FS) Project Plans and conduct the necessary sampling and analyses for the subject site.

2. We are required by a Federal Facilities Agreement to address review comments no later than 30 days from distribution date, please provide comments no later than 11/7/93 so that comments may be included in the Final Submission.

3. In accordance with reference (a), we understand that the Army has been delegated with the responsibility of coordinating and overseeing the study and remediation of sites contaminated with chemical surety agents. Field Sampling is scheduled to begin on 19 December 1993.
